Subject.

SIR,

As promised in para 2 of my letter No.8000 dated 30th April 1921 regarding the preparation of Imperial Tables (Part II). I have the honour to address Government regarding the preparation of the Taluk-war and Village Population Tables (i.e., Parts IV and V of the Census Report.) The Census Commissioner has issued certain instructions in regard to the preparation of Part III of the Report (i.e., the Administrative volume) and these will be complied with by me.

reduced to about 200 pages, the Tables being, owing to this curtailment, printed breadthways instead of lengthways and in double columns on the foolscap page. The same number of copies as on the last occasion (i.e., 650) may also be printed at the present census.

Part IV of the Report. 550 copies of this Part consisting of about 165 pages were printed on the last occasion. It is proposed to omit Table II, to condense Tables VI (Mother tongue), VII (Birth-place) and VIII (Caste) therein, to leave Tables I, III and IX unaltered and to combine Tables IV and V into one viz., Provincial Table II. The object of all these changes will be to omit all superfluous detail and to leave some-thing to the research of the reader while the bulk of the volume will not exceed 150 pages and may even be compressed into 100 pages. The same number of copies as on the last occasion may be printed at the present census.

I intend also getting brief introductory notes affixed to each of these volumes describing the uses of the several Tables. Such a note will not be superfluous for the general reader and for the District and Taluk Officers.

If I remember right, Parts IV and V of the 1911 Census were printed under the verbal orders of the then Dewan Mr. T. Ananda Rao and there is probably nothing on record to show on what principles the matter in these volumes was included. As the reduction of printing and stationery charges is essential at the present time I have made the above proposals for curtailing the bulk of the xxx volumes without detriment to effic_____.
